■ Company Description(公司簡介)

NOVAMEDINTL is a company specializing in the development of high-functionality cosmetics and meso cosmetics solutions based on medical and aesthetic technologies. Drawing on formulation design expertise accumulated in medical treatment environments, NOVAMEDINTL develops and distributes cosmetic products that apply a new generation technology designed to promote collagen formation through topical application, rather than skin injection. By focusing on absorption efficiency and functional mechanisms, the company delivers next-generation cosmetic solutions that go beyond conventional skincare approaches and are positioned for global markets.

NOVAMEDINTL 是一家以醫療與美容技術為基礎，專注於開發高機能化妝品與 meso-cosmetics 解決方案的公司。NOVAMEDINTL 憑藉在醫療環境中累積的配方設計經驗，開發並流通採用新一代技術的化妝品，透過外用塗抹方式促進膠原蛋白生成，而非皮膚注射。公司聚焦於吸收效率與機能作用機制，提供超越傳統保養概念、面向全球市場的新世代化妝品解決方案。

■ Product Description(產品介紹)

1. PINK SHOT for LIP and BODY / Broccoli EXOSOME VITAL SERUM

Broccoli Exosome VITAL Serum for LIPS, DARK CIRCLES, ARMPITS, INTIMATE AREAS. EXSOLU introduces a new concept of biological tone restoration through advanced meso-cosmetics technology. Powered by Plant Exosome, Vitamin B12, and DDS™ Delivery System, the Broccoli Vital Serum supports visible pink tone recovery for lips, intimate areas, and pigmented skin, focusing on skin condition, vitality, and biological activation.

2. Rose PDRN Serum, Ginseng PDRN Serum

EXSOLU's dual PDRN serums optimize skin in two steps. Rose PDRN restores balance, calming sensitive skin and replenishing hydration. Wild Ginseng PDRN promotes regeneration while delivering tone correction and brightening effects. Stabilize the skin first with Rose PDRN, then brighten and perfect it with Ginseng PDRN for a complete reset.

3. Bio polymer Structure LINE: PCL & dPLLA

PCL & dPLLA defines skin regeneration through fundamental approaches. dPLLA stimulates fibroblasts and induces collagen synthesis, restoring dermal thickness through biological processes. The applied material itself does not simply fill volume—the newly generated collagen becomes the natural volume itself.

1. PINK SHOT 唇部與身體護理 / 青花菜 EXOSOME 活力精華

綠花椰菜外泌體活力精華，可用於唇部、眼周暗沉、腋下及私密部位等局部護理。EXSOLU 運用先進美塑保養技術，帶來全新的生物調色保養概念。綠花椰菜活力精華添加植物外泌體、維生素 B12 與 DDS™ 精準輸送系統，針對唇部、私密部位及暗沉肌膚提供集中護理，幫助改善膚色不均，呈現自然粉嫩光澤，著重於肌膚狀態與活力的提升。

2. 玫瑰 PDRN 精華、人參 PDRN 精華

EXSOLU 雙效 PDRN 精華系統，以兩步驟幫助調理膚況。Rose PDRN 著重於穩定膚況，幫助舒緩敏感肌膚並補充水分；Wild Ginseng PDRN 則著重於修護活化，並帶來膚色調理與提亮效果。採用先穩定肌膚、再提升透亮感的原则，完成更細緻的肌膚完整護理。

3. 生物聚合物結構系列:PCL & dPLLA

EXSOLU 以基本途徑定義肌膚再生：dPLLA 代表活化。它能夠刺激纖維母細胞，並誘導膠原蛋白合成，透過生物性過程恢復真皮層厚度。注入的材料本身並不單純創造容量，而是透過新生成的膠原蛋白本身來成為容量。

obje-grance

■ Company Description(公司簡介)

Obje-grance is an emotional wellness brand that helps busy individuals bring mindfulness into their everyday lives through the power of scent. We believe true beauty begins within, and our aromatic products are designed to encourage moments of awareness, calm, and reconnection with oneself. Inspired by the idea that unique liquids are held in distinct vessels, each fragrance is presented in a thoughtfully designed object that reflects both individuality and harmony. While the outer form remains unified, every scent carries its own character—celebrating the beauty and authenticity within each person rather than following fleeting trends. Reflecting our philosophy of looking inward, our signature packaging opens from the back, symbolizing a journey from the outside to the inside. Through scent and design, Obje-grance invites people to pause, breathe, and rediscover their most authentic selves.
